

- ✓ OEKO-TEX® enables consumers and companies to protect our planet by making responsible decisions
- ✓ All OEKO-TEX® services have international validity
- ✓ Test criteria and limit values are in conformance with relevant current national and international regulations

**STANDARD 100 by OEKO-TEX®** is an independent certification system for textile products at all stages of production which verifies that the item has been tested for harmful substances. Certificates are issued if all components meet the annually updated requirements.

**MADE IN GREEN by OEKO-TEX®** is a label for textile and leather products made with materials tested for harmful substances, made in environmentally friendly facilities and made in safe and socially responsible workplaces. The product ID and/or the QR code on the label allows consumers to trace labelled products.

**STeP by OEKO-TEX®** is an independent certification for environmentally friendly and socially responsible textile and leather production facilities. Certificate owners can transparently document and communicate their sustainable commitment by reporting on key performance indicators.

**ECO PASSPORT by OEKO-TEX®** is an independent certification for chemicals, colorants and auxiliaries. It consists of a verification procedure that analyses whether or not substances meet specific criteria for sustainable textile and leather production.

**DETOX TO ZERO by OEKO-TEX®** enables manufacturers along the textile and leather chain based on an annual status report to assess whether their chemical management and the quality of their wastewater and sludge are in line with the goals of the Greenpeace Detox campaign.

**LEATHER STANDARD by OEKO-TEX®** is an independent certification system for leather articles, at all levels of production, tested for harmful substances. Certificates are issued if all components of the item meet the annually updated requirements.

- ✓ Accredited and independent certification and testing
- ✓ All tests are carried out in Switzerland in accordance with ISO and EN standards
- ✓ Products which are tested and certified by TESTEX are guaranteed to conform to legal requirements

## UV STANDARD 801

**UV STANDARD 801** is the world strictest certification for sun-protective clothing and sunshades. It measures the UPF on both the new and used textile (wet and stretched) according to the maximum UV radiation and the most sensitive skin.

## PPE Certification

TESTEX is a recognised conformity assessment body for **personal protective equipment (PPE)** and conducts neutral type examinations that are valid throughout Europe.

## Textile Testing

TESTEX uses the latest technology to perform comprehensive **textile tests** on fibres, yarns, non-woven, woven, and knitted fabrics, e.g. fabric testing for quality comparison, physiology tests, colour fastness, fire protection tests etc.

## Round Robin Test

TESTEX is an accredited proficiency testing provider according to ISO 17043 and conducts **Round Robin tests** for colour fastness, function, yarn and fabric properties.

## Proven Quality

**Proven Quality** is a custom-made label. It allows manufacturers to inform their consumers about all assessments which were carried out to guarantee the quality of the product, e.g. colour fastness, UV protection, waterproofness, etc.
